SDG BUDGET ALLOCATION REPORT 2020-21

Introduction

The 17 Sustainable Development Goals (SDGs) of the UN's 2030 Agenda for Sustainable Development were adopted by all Member states in September 2015. They set an ambitious agenda, aiming to end all forms of poverty, to fight against inequalities, to build peace and tackle urgent environmental issues while also ensuring that no one is left behind.

Matching the global ambition has been the declared SDG VISION 2030 of the Government of Haryana. Haryana is one of the fastest upward-moving states in India that contributes significantly to the national economic growth and development. At the same time, it faces several human and environmental challenges both in

urban and particularly rural areas. Therefore, the Government of Haryana has been striving to align its economic growth with human and environmental development for a sustainable society and ecology in the State.

Since national and state governments have the main responsibility for realizing their set targets in the VISION, as the primary political and economic expression of government policy, the budget seems a natural platform for the integration of Agenda 2030 and its Sustainable Development Goals (SDGs).

Objective of the Report

Embedding the SDGs into policy planning at the State level is key towards their achievement. The first step towards this exercise is to examine how and where the resources of the State are being

allocated. This should help in accessing the next steps to analyse how the budget is impacting the access to basic services (education, health, etc.), the distribution of wealth, the investments in environment protection mechanisms

and sustainability initiatives, the choice of private investments in economic sectors, etc.

The main objective of the report is to provide an overview of the 2020-21 budget allocations under each SDG and highlight as how various government departments in Haryana are going to deliver expected results in an integrated and coordinated manner. Thus, the report will serve as a monitoring guide for each department to achieve desired change by using the SDG framework and make inform decisions about resource allocations.

As is evident from this report, the Government of Haryana is committed to integrating the SDGs into budgetary process. This will improve policy coherence, since one of the main objectives of the SDGs is to set a range of targets and avoid conflict between them. Coupled with the Output- Outcome Framework Report it will help increase transparency and accountability.

Since the present report is closely coinciding with the budget making process the objective of this report is limited to preliminary top line analysis of the data generated through the State Government's Online Budget Allocation Monitoring & Analysis System (http://bamsharyana.nic.in). This should further help build insights into analysing the budgetary gaps, duplication of schemes, achievement of critical strategic outputs and outcomes. It should be highlighted, however, that the implementation of Agenda 2030 is not just a matter of financial means, and SDG spending reflects only part of the political effort towards the achievement of the SDGs.

Major Highlights of the Report

The Budget Estimate (BE) 2020-21 for different welfare and development schemes is Rs. 45,425.00 crore under different SDGs, which is higher than the Revised Estimate (RE) 2019-20 Rs. 43,750.17 crore
