

Goal 13: Take urgent action to combat climate change and its impacts

Goal 13 aims to take urgent action to combat climate change and its impacts. It talks about building this resilience and adaptive capacity to climate related hazards and integration of such measures into national policies. It focuses not only on early warning but also on impact reduction. It emphasizes the role of partnerships and commitment among nations for the same. There are 5 targets in Goal 13 to measure the changing impacts of climate related hazards. A total of 5 indicators have been identified at national level to measure and monitor the progress of these targets. Data is available for 3 indicators.
