1. Overview & Methodology

Sustainable Development Goals

The United Nations General Assembly during its 70th Session, on 25th September 2015, adopted the document titled "**Transforming our World: The 2030 Agenda for Sustainable Development**" consisting of 17 Sustainable Development Goals and associated 169 targets. The Sustainable Development Goals (SDGs) are the blueprint for achieving a better and sustainable future for all. The SDGs came into force with effect from 1st January, 2016. The SDGs are a comprehensive list of global goals integrating the three dimensions of development. Moreover, the SDGs are universal (for all nations - developed, developing and least developed), interconnected and indivisible and hence necessitate comprehensive and participatory approaches in bringing everybody together so that '**Leaving No One Behind.**' The targets for each goal are accompanied by indicators that focuses on measurable outcomes. Initially, a total of 244 indicators were identified in the Global Indicator Framework (GIF) for monitoring the progress of Global SDGs and associated target. In present, 248 indicators include in Global Indicator Framework.

The Sustainable Development Goals provide an international framework to move by 2030 towards more equitable, peaceful, resilient and prosperous societies. The SDGs are not legally binding, but have become de-facto international obligations and have potential to reorient domestic spending priorities of the countries till 2030. Countries are expected to take ownership and establish a national framework for achieve these goals. Implementation and success will depend on countries' own sustainable development policies, plans and programmes. The 2030 Agenda also underscored the fact that quality, reliable and disaggregated data would be needed for measurement of progress on the targets and for ensuring its central, transformative promise, i.e., "Leaving No One Behind".

SDGs India Index

With the objective of measuring the progress of SDGs and develop competitiveness among States and UTs, NITI Aayog has released three versions of SDG India Index till now. Based on the results of the SDG India Index, States and Union Territories (UTs) have been classified into 4 categories: Achiever, Front runner, Performer and Aspirant, where the 'Achiever' category represents the highest rank and the 'Aspirant' category represents the lowest rank.

SDG India Index 1.0: The first version of the Index i.e. SDG India Index Baseline Report, 2018 (SDG India Index 1.0) was released in December, 2018. The Index tracks the progress of all the States and UTs on a set of 62 indicators covering 13 SDGs (leaving out Goals 12, 13, 14 and 17, mainly

because of paucity of data). As per the report, Rajasthan has been ranked as 'Performer' with 59 composite score in SDG India Index 1.0. The all India score stood at 57.

SDG India Index 2.0: It is the second version of the Index which builds upon its first version. It was launched in December, 2019. The Index has been constructed using 100 indicators that covers 54 targets across 16 goals barring Goal 17 due to the fact that the data for SDG 17 are not available. On the lines of the first version of the SDG India Index, States and UTs have been classified into 4 categories i.e. Achiever, Front runner, Performer and Aspirant in SDG India Index 2.0. As per the report, Rajasthan has been ranked as 'Performer' on Composite SDG India Index 2.0 with the Index Score of 57 whereas all India score stood at 60.

SDG India Index 3.0: SDGs India Index 3.0 launched in June, 2021 in which composite score for India improved to 66 in 2020-21 of 60 in 2019-20, including that the country overall has progressed forward in its journey towards achieving the SDGs. Rajasthan improved its overall SDG Score from 57 in 2019-20 to 60 in 2020-21, albeit retaining its position in the performer category. 16 SDGs that were quantitatively assessed between 2019-20 and 2020-21, Rajasthan shows maximum improvement in Goal 7 (Affordable Clean Energy), achieving 100 score.

Rajasthan SDGs Index

The SDG Index of Rajasthan aims to measure the performance of districts on the SDG's. Additionally, SDG Index can be broken down into goal level score in order to help understand what goals have been achieved and where more effort is needed. NITI Aayog's Methodology was used in computing this index and set of indicators chosen as per availability of district wise data in the state. Districts have been also classified into 4 categories: Achiever, Front runner, Performer and Aspirant, where the 'Achiever' category represents the highest rank and the 'Aspirant' category represents the lowest rank.

Index has the following objectives:

- To promote healthy competition among the Districts in their journey towards achieving the Global Goals.
- To rank the Districts based on their performance across the SDGs. A composite score was also calculated, which ranked the districts based on their overall performance across multiple Goals.
- To support the Districts in identifying priority areas which demand more attention.
- To enable the Districts to learn from the good practices of their peers.
- To highlight data gaps in the statistical system of the Districts and identify the sectors in which robust and more frequent data needs to be collected.

Rajasthan SDGs Index-2020 (Ver.-1.0):

The First edition of Rajasthan SDGs Index has been developed using 31 indicators across 12 goals. The data is retrieved from publicly available sources for these identified indicators. These data were aggregated to develop individual SDG score for each district in Rajasthan, which is then used to develop the Sustainable development goals index for Rajasthan. For each goal, the SDG score ranges between 0 and 100, where 0 being the worst among the group and 100 signifying that all the targets for that goal/all goals have been achieved. District wise Status of composite scores and ranks in Rajasthan SDG Index 1.0, 2.0, 3.0 & 4.0 is available at **Annexure I**.

Rajasthan SDGs Index-2021 (Ver.- 2.0):

The second edition of Rajasthan SDGs Index has been developed using 55 indicators across 13 goals. The data is retrieved from publicly available sources for these identified indicators. These data have been aggregated to develop individual SDG score for each district in Rajasthan, which is then used to develop the Sustainable development goals index for Rajasthan. For each goal, the SDG score ranges between 0 and 100, where 0 being the worst among the group and 100 signifying that all the targets for that goal/all goals have been achieved.

Rajasthan SDGs Index-2022 (Ver.-3.0):

The third edition of Rajasthan SDGs Index has been calculated on 75 indicators covering 14 goals. Data of these indicators is collected from various departmental information/Data and publicly available sources. These data have been aggregated to calculate individual SDG score for each district in Rajasthan, which is then used to develop the Composite Sustainable development goals Index for Rajasthan. For each goal, the SDG score ranges between 0 and 100, where 0 being the worst among the group and 100 signifying that all the targets for that goal/all goals have been achieved.

Rajasthan SDGs Index-2023 (Ver.-4.0):

The fourth and current edition of Rajasthan SDGs Index has been constructed on 83 indicators covering 14 goals. While most of the indicators are directly taken from the SIF and NITI Aayog Index indicator list, some SIF indicators have been modified owing to data availability across all Districts. Similarly Data of these indicators are collected/updated from various departmental information / Data and publicly available sources. The Index offers insights into social, economic, and environmental status of the state and the Districts in their march towards achieving the SDGs.

Methodology

The methodology used to calculate SDG Index is as follows:

1. **Priority Indicator selection and data collection:** Based on the data availability, 83 indicators are selected for developing the Sustainable Development Goals Rajasthan Index.

Data collected on these indicators from government sources. The list of following indicators are:

List of Indicators

S. No.	Goal	Detail of Indicator
1.	Goal 1	Below poverty line (Households)
2.		Head count ratio as per the Multidimensional Poverty Index (%)
3.		Households with any usual member covered Under health Insurance/ Financing Scheme (%)
4.		Percentage of Persons getting employment offer to persons who demanded employment under MGNREGA (%)
5.		JSY beneficiaries out of the total deliveries happening in public institutions and private accredited institutions (%)
6.		Percentage of households living in katcha houses
7.		Number of homeless households per 10,000 households
8.	Goal 2	Percentage of children under five years who are underweight
9.		Percentage of children under five years who are stunted
10.		Percentage of pregnant women aged 15-49 years who are anaemic
11.		Percentage of adolescents aged 15-19 years who are anaemic
12.		Rice, wheat & Coarse Cereals produced annually per unit area (Kg/Ha)
13.		Gross Value Added (constant prices) in agriculture per worker (in Lakhs/worker)
14.		Percentage of Net Area Sown to total culturable Land
15.		Oil Seeds produced annually per unit area (Kg/Ha)
16.		Percentage of women (aged 15-49) whose BMI Is Below 18.5
17.	Goal 3	Under 5 mortality rates (per 1,000 live births)
18.		Percentage of children 9-11 months fully immunized
19.		Total case notification rate of Tuberculosis (per 1,00,000 population)
20.		Suicide rate (per 1,00,000 population)
21.		Death rate due to road traffic accidents (per 1,00,000 population)
22.		Percentage of institutional deliveries out of the total deliveries reported
23.		Percentage of currently married women aged 15-49 years who use any modern method of family planning
24.		Population Served per Medical Institution
25.		Mothers who had at least 4 antenatal care visits (%)
26.	Goal 4	Adjusted Net Enrolment Ratio (ANER) in elementary education (class 1-8)
27.		Dropout rate at secondary level (class 9-10)
28.		Gross Enrolment Ratio (GER) in higher secondary (class 11-12)

S. No.	Goal	Detail of Indicator
29.		Percentage of schools with electricity Facility
30.		Percentage of schools with drinking water Facility
31.		Percentage of trained teachers at secondary level (class 9-10)
32.		Pupil Teacher Ratio (PTR) at secondary level (class 9-10)
33.		No of Sec- and Sr.Sec. School per 1 lakh population
34.	Goal 5	Rate of crimes against women per 1,00,000 female population
35.		Sex ratio at birth
36.		Per lakh women who have experienced cruelty/physical violence by husband or his relatives during the year
37.		Female Work participation rate
38.		Percentage of Female land Holdings to total land holdings
39.		Rate of Dowry cases per 1 lakh Female population
40.		Women of Age 15-49 who are literate
41.		Goal 6
42.	Percentage of population having improved source of drinking water	
43.	Percentage of Households using improved sanitation facility (%)	
44.	Percentage of schools with Separate toilets Facility for Girls	
45.	Percentage of ground water withdrawal against availability	
46.	Districts Status verified to be ODF	
47.	Percentage of MSW Processed to the total MSW Generated (SBM-U)	
48.	Goal 7	Percentage of households electrified
49.		Households using clean fuel for cooking
50.	Goal 8	Annual growth rate of DDP (constant prices) per capita
51.		Workforce participation rate (2011)
52.		Percentage of households covered with a bank account under PMJDY against target
53.		Number of functioning branches of commercial banks per 1,00,000 population
54.		Automated Teller Machines (ATMs) per 1,00,000 population
55.		Percentage of women account holders in PMJDY
56.	Goal 9	Road Length (Per Square KM)
57.		Per Lakh Business Entity Registered in Business Registration Portal
58.		Percentage Share of GVA in Services to total GVA (current prices)
59.		Rate of total crimes against SCs (per 1,00,000 population)
60.		Rate of total crimes against STs (per 1,00,000 population)
61.		Proportion of SC&ST Employment share in total MGNERGA employment generation to SC & ST Population

S. No.	Goal	Detail of Indicator
62.	Goal 10	Percentage of Seats held by women in PR Institutions (PRIs)
63.		Percentage of urban households living in katcha houses
64.		Deaths due to road accidents in urban areas (per 1,00,000 population)
65.		Urban households living in slums (%)
66.	Goal 11	Percentage of ward with 100 percentage door to door waste collection (SBM(U))
67.		Percentage use of nitrogenous fertilizer out of total N, P, K, (Nitrogen, Phosphorous, Potassium)
68.		Per Capita Food (Cereals) Production (Kg. per Person)
69.		Forest cover as a percentage of total Geographical area
70.	Goal 12	Percentage of area covered under afforestation schemes to the total geographical area
71.		Number of cases reg. under Wildlife Protection Act (1972) to Geographical Area (per 1000 Sq. Km. Protected Area)
72.	Goal 15	Murders per 1,00,000 population
73.		Cognizable crimes against children per 1,00,000 population
74.		Number of victims of human trafficking per 10 lakh population
75.	Goal 16	Murders per 1,00,000 population
76.		Cognizable crimes against children per 1,00,000 population
77.		Number of victims of human trafficking per 10 lakh population
78.		Number of missing children per 1,00,000 child population
79.		Children under age 5 years whose birth was registered with the civil authority (%)
80.		Percentage of population covered under Aadhaar
81.		Percentage of Population Covered under Jan-Aadhar
82.		Deaths in the last 3 years registered with the civil authority
83.	% of disposal of Grievances registered on Rajasthan Sampark	

2. **Target Setting:** Use the targets set for each indicator in calculating the Sustainable Development Goals Index on the lines of NITI Aayog. Basically, target has been decided as laid down points:

- Target decided by United Nations Agencies
- As per SDG targets decided by GoI/NITI Aayog
- As per SDG India Index 3.0
- Best performance District Value
- Average of Best 3 Performance Districts

The details on the targets used are presented at **Annexure – II**.

3. **Normalization:** Since the indicators used in the construction of index have different units of measurement, the units are normalized in order to be able to compare different districts based on a variety of indicators. Normalisation transforms all data into dimensionless numbers. Normalization of the indicators is done using the formula used by NITI Aayog in the calculation of SDG India Index. For each indicator the normalised values range from 0 to 100. An indicator value of 100 means that the district has achieved the target in terms of that indicator. If a district scores more than 100 on an indicator i.e. it is doing better than the target set, then its value is capped at 100 the normalised.

For positive indicators the normalised value of an indicator is calculated as follows:

$$Z = \frac{x - \min(x)}{T(x) - \min(x)} \times 100$$

Where:

Z is the normalised score for the indicator

x is the indicator value in raw data

min (x) is the minimum observed value of the indicator in the dataset

T (x) is the target value of the indicator

For negative indicators the normalised value of an indicator is calculated as follows:

$$Z = \left[1 - \frac{x - T(x)}{\max(x) - T(x)} \right] \times 100$$

Where:

Z is the normalised score for the indicator

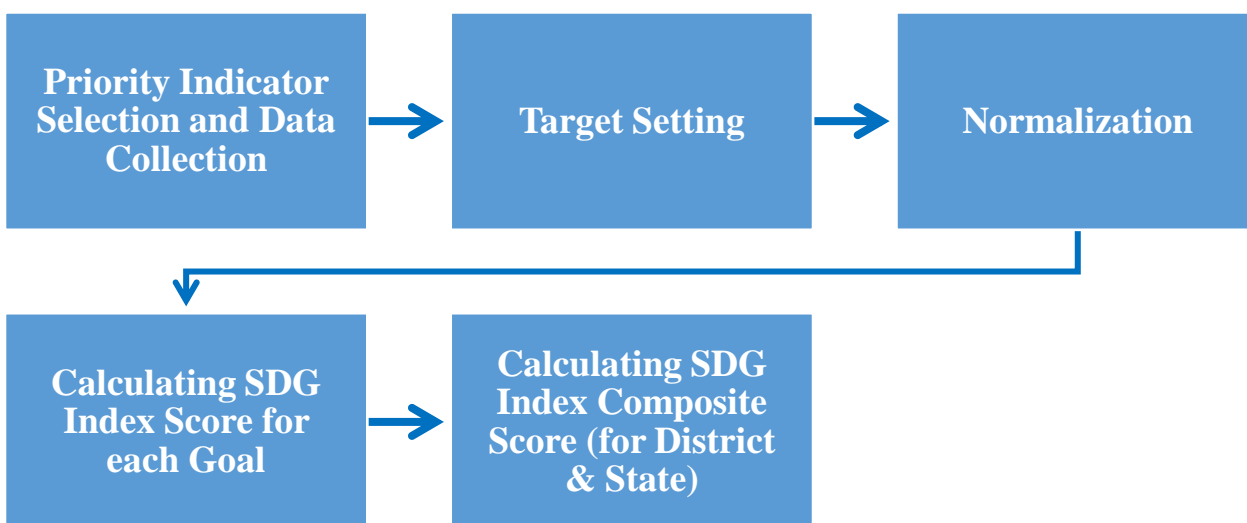

x is the indicator value in raw data

max (x) is the maximum observed value of the indicator in the dataset

T (x) is the target value of the indicator

4. **Weighting:** Each indicator is assigned a weight, indicating the importance it has in influencing SDGs. Here, each indicator has been assigned equal weight. This is based on the assumption that each indicator has equal value for sustainable development.
5. **Calculating SDI score for each goal:** For each goal, the index value is calculated for each district by taking the arithmetic mean of the normalized values of all the priority indicators within a goal. The values for SDG score range in between 0 to 100 with 0 being the worst performer in the group and 100 being the achiever of the target. The details on goal wise scores for each district is presented at **Progress on Goals Chapter**.
6. **Calculating SDG Index score for a district:** Each goal is assigned an equal weight in calculating the SDI score for the district. For each goal, the SDG score range in between 0 to 100 with 0 being the worst among the group and 100 meaning that all the targets under that goal have been achieved.

7. Flow chart: Methodology of Construction of the Index

Limitations of the Index

While Rajasthan SDG Index 4.0 is a useful instrument to judge the progress of the Districts in adopting and implementing the SDG agenda, this Index have the following limitations:

- The Index does not measure indicators of all SDGs owing to the unavailability of suitable data at the District level.

- All SIF Indicators could not be included due to the unavailability of data at District level.
- The indicator set for Rajasthan SDG Index 4.0 is larger (83 indicators) compared to Rajasthan SDG Index 3.0 (75 indicators), SDG Index 2.0 (55 indicators) & Rajasthan SDG Index 1.0 (31 Indicators), therefore these indices are strictly not Comparable. Further, given the comprehensiveness of the agenda, benchmarks will undergo continual change to meet the aspirations of SDGs.
- A case can be made to assign unequal weights to certain indicators. However, equal weights have been assigned, given the normative assumption that all SDGs are equally valuable.

2. Rajasthan SDGs Index-2023

The composite score for each Districts was computed by aggregating their performance across the goals, by taking the arithmetic mean of individual goal scores. The composite score ranges from 0 to 100 and denotes the overall achievement of the Districts in achieving the targets under the Goals. A score of 100 implies that the Districts has achieved the targets set for 2030; a score of 0 implies that the particular Districts is at the bottom of the table. The goal wise top 3 and bottom 3 districts in Rajasthan Indices are presented at **Annexure – III**.

- ✚ The Rajasthan SDG Index 4.0 score for the Districts ranges between 51.33 and 65.92. This presents a notable improvement from 2022, when the scores varied between 46.99 and 64.88 for the Districts.
- ✚ The 1st Rank has been achieved by District Sikar with a score of 65.92. Jhunjhunu and Nagaur took the second and third spot on the table respectively, besides this Jaisalmer is in the bottom of table.
- ✚ The composite score for Rajasthan improved, from 57.58 in 2022 to 60.25 in 2023. This indicates that the state overall has progressed forward in its journey towards achieving the SDGs.
- ✚ Elven Goals drive the positive push – 1 (No Poverty), 2 (Zero Hunger), 3 (Good health and well-being), 4 (Quality Education), 5 (Gender Equality), 6 (Clean Water and Sanitation), 9 (Industry, Innovation and Infrastructure), 10 (Reduced Inequalities), 11 (Sustainable Cities and Communities), 12 (Responsible Consumption and Production) and 15 (Life on Land).
- ✚ Two goals drive the negative push - 8 (Decent Work and Economic Growth) and 16 (Peace, Justice, and Strong Institutions) demand special attention.
- ✚ In SDG 9 and SDG 10, the State score has moved from the Performer category to the Front Runner category. Goal 10 has seen the biggest movement from 63.30 in 2022 to 76.53 in 2022.

Progress on Goals

NO POVERTY

End poverty in all its forms everywhere

Goal 1 encompasses the aim of eradicating poverty - not only in monetary terms but in all forms and dimensions by 2030. This involves targeting the most vulnerable, increasing basic resources and services, and supporting communities affected by conflict and climate-related disasters. It calls for continuous monitoring of progress in social protection and implementing nationally appropriate social protection systems. The importance of mobilising resources from a variety of sources, including through enhanced development cooperation, is also emphasised in this goal.

Rajasthan SDGs Index: Goal 1

To measure State's performance towards the Goal of No Poverty, seven indicators have been identified. These indicators have been selected based on the availability of data at the District level and to ensure comparability across Districts.

Indicator Used:

- ❖ Below poverty line (Households)
- ❖ Head count ratio as per the Multidimensional Poverty Index (%)
- ❖ Households with any usual member covered under health Insurance/ Financing Scheme (%)
- ❖ Percentage of Persons getting employment offer to persons who demanded employment under MGNREGA (%)
- ❖ JSY beneficiaries out of the total deliveries happening in public institutions and private accredited institutions (%)
- ❖ Percentage of households living in katcha houses
- ❖ Number of homeless households per 10,000 households

Goal 1 Index Score

SDG Index Score for Goal 1 ranges between 50.79 and 81.61 for Districts. Nagaur is the top performers among the Districts. Twenty-two Districts bagged a position in the category of Front Runners. However, Elven Districts fell behind in the Performer category.

The following Table presents the scores of the Districts on this Goal. It also shows a breakdown of the Districts by indicator.

ZERO HUNGER

End hunger, achieve food security, improve nutrition and promote sustainable agriculture

This SDGs aim to end all forms of hunger and malnutrition by 2030, making sure all people - especially children - have sufficient and nutritious food all year. This involves promoting sustainable agricultural, supporting small-scale farmers and equal access to land, technology and markets. It also requires international cooperation to ensure investment in infrastructure and technology to improve agricultural productivity. The goal also focuses at - doubling agricultural productivity, maintaining genetic diversity of seeds, plants and farmed animals, and strengthening capacity for climate change adaptive agriculture.

Rajasthan SDGs Index: Goal 2

To measure Rajasthan's performance towards the Goal of Zero Hunger, nine indicators have been identified. These indicators have been selected based on the availability of data at the Districts level.

Indicator Used:

- ❖ Percentage of children under five years who are underweight.
- ❖ Percentage of children under five years who are stunted.
- ❖ Percentage of pregnant women aged 15-49 years who are anaemic
- ❖ Percentage of adolescents aged 15-19 years who are anaemic
- ❖ Rice, Wheat & Course cereals produced annually per unit area (Kg/Ha)
- ❖ Gross Value Added (constant prices) in agriculture per worker (in Lakhs/worker)
- ❖ Percentage of Net Area Sown to total culturable Land
- ❖ Oil Seeds produced annually per unit area (Kg/Ha)
- ❖ Percentage of women (aged 15-49) whose BMI Is Below 18.5

Goal 2 Index Score

SDG Index Score for Goal 2 ranges between 27.43 and 64.42 for Districts. Jaipur is the top performers among the districts. Thirteen Districts bagged a position in the category of Performer. However, twenty districts fell behind in the Aspirants category.

The following table presents the composite scores of the Districts on this Goal. It also shows a breakdown of the Districts by indicator.

GOOD HEALTH AND WELL-BEING

Ensure healthy lives and promote well-being for all at all ages

Good health is essential to sustainable development and the 2030 Agenda reflects the complexity and interconnectedness of the two. It takes into account widening economic and social inequalities, rapid urbanisation, threats to the climate and the environment and emerging challenges such as non-communicable diseases. It calls for a renewed focus on mental health issues as well. Universal health coverage, including financial risk protection, access to quality essential health care services and access to safe, effective, quality, and affordable medicines are integral to this goal.

Rajasthan SDGs Index: Goal 3

To measure Rajasthan's performance towards the Goal of Good Health and Well-Being, nine indicators have been identified. These indicators have been selected based on the availability of data at the Districts level and to ensure comparability across Districts.

Indicator Used:

- ❖ Under 5 Mortality Rate (per 1,000 live births).
- ❖ Percentage of children 9-11 months fully immunized.
- ❖ Total case notification rate of Tuberculosis (per 1,00,000 population).
- ❖ Suicide rate (per 1,00,000 population).
- ❖ Death rate due to road traffic accidents (per 1,00,000 population).
- ❖ Percentage of institutional deliveries out of the total deliveries reported.
- ❖ Percentage of currently married women aged 15-49 years who use any modern method family planning.
- ❖ Population Served per Medical Institution.
- ❖ Mothers who had at least 4 antenatal care visits (%).

Goal 3 Index Score

SDG Index Score for Goal 3 ranges between 35.48 and 66.39 for Districts. Baran is the top performers among the Districts. Two districts bagged a position in the category of Front Runner. Twenty-five districts were in the performer category and six districts in was in the category of Aspirants

The following table presents the composite scores of the Districts on this Goal. It also shows a breakdown of the Districts by indicator.

Quality Education

Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all

Achieving inclusive and quality education for all reaffirms the belief that education is one of the most powerful and proven vehicles for sustainable development. This goal is aimed at ensuring that all girls and boys complete primary and secondary schooling by 2030 and are provided equal access to affordable vocational training, to eliminate gender and wealth disparities, and achieve universal access to a quality higher education. Additionally, it emphasises on lifelong learning opportunities, so as to achieve substantial adult literacy and numeracy, and on building and upgrading existing education facilities that are child, disability and gender-sensitive.

Rajasthan SDGs Index: Goal 4

To measure Rajasthan's performance towards the Goal of Quality education, eight indicators have been identified. These indicators have been selected based on the availability of data at the Districts level and to ensure comparability across Districts.

Indicator Used:

- ❖ Adjusted Net Enrolment Ratio (ANER) in elementary education (class 1-8)
- ❖ Dropout rate at secondary level (class 9-10)
- ❖ Gross Enrolment Ratio (GER) in higher secondary (class 11-12)
- ❖ Percentage of schools with electricity Facility
- ❖ Percentage of schools with drinking water Facility
- ❖ Percentage of trained teachers at secondary level (class 9-10)
- ❖ Pupil Teacher Ratio (PTR) at secondary level (class 9-10)
- ❖ No of Sec- and Sr.Sec. School per 1 lakh population

Goal 4 Index Score

SDG Index Score for Goal 4 ranges between 54.23 and 89.95 for Districts. Jaipur is the top Front Runner among the Districts. Twenty-one districts bagged a position in the category of Front Runner. Twelve districts were in the performer category.

The following table presents the composite scores of the Districts on this Goal. It also shows a breakdown of the Districts by indicator.

GENDER EQUALITY

Achieve gender equality and empower all women and girls

Ending all discrimination against women and girls is a basic human right and is a prerequisite for sustainable development. Goal 5 calls for ending all forms of violence, trafficking and sexual exploitation of women and girls. Recognising and valuing unpaid care and domestic work is a key component of this goal, with emphasis on the importance of full and effective participation and equal opportunities for leadership at all levels of decision-making in political, economic and public life for women.

Rajasthan SDGs Index: Goal 5

To measure Rajasthan's performance towards the Goal of Gender Equality, seven indicators have been identified. These indicators have been selected based on the availability of data at the Districts level and to ensure comparability across Districts.

Indicator Used:

- ❖ Rate of crimes against women per 1,00,000 female population.
- ❖ Sex ratio at birth.
- ❖ Per lakh women who have experienced cruelty/physical violence by husband or his relatives during the year.
- ❖ Female Work participation rate.
- ❖ Operational land holding gender wise (percentage of female operated operational holdings).
- ❖ Rate of Dowry cases per 1 lakh Female population.
- ❖ Women of Age 15-49 who are literate.

Goal 5 Index Score

SDG Index Score for Goal 5 ranges between 25.10 and 53.26 for Districts. Dungarpur is the top Performer among the Districts. Three districts bagged a position in the category of Performer. Thirty districts was in the Aspirant category.

The following table presents the composite scores of the Districts on this Goal. It also shows a breakdown of the Districts by indicator.

CLEAN WATER AND SANITATION

Ensure availability and sustainable management of water and sanitation for all

Goal 6 calls for access to safe and affordable drinking water, sanitation facilities, and hygiene for all by 2030. Water resources are also critical for agriculture and industrial use, and therefore protecting and restoring water-related ecosystems is essential. The goal is aimed at –improving water quality by reducing pollution, substantially increasing water-use efficiency across all sectors, and strengthening the participation of local communities in improving water and sanitation management.

Rajasthan SDGs Index: Goal 6

To measure Rajasthan’s performance towards the Goal of Clean water and Sanitation, seven indicators have been identified. These indicators have been selected based on the availability of data at the Districts level and to ensure comparability across Districts.

Indicator Used:

- ❖ Percentage of Rural Households with Tap Water Connection to total Rural Households under JJM
- ❖ Percentage of population having improved source of drinking water
- ❖ Percentage of Households using improved sanitation facility
- ❖ Percentage of schools with Separate toilets Facility for Girls
- ❖ Percentage of ground water withdrawal against availability
- ❖ Districts Status verified to be ODF
- ❖ Percentage of MSW Processed to the total MSW Generated (SBM-U)

Goal 6 Index Score

SDG Index Score for Goal 6 ranges between 32.77 and 74.07 for Districts. Kota is the top Performer among the Districts. Six districts bagged a position in the category of Performer. Twenty-three districts were in the performer category and four districts was in the Aspirant category.

The following table presents the composite scores of the Districts on this Goal. It also shows a breakdown of the Districts by indicator.

AFFORDABLE AND CLEAN ENERGY

Ensure access to affordable, reliable, sustainable and modern energy for all

Energy security is a prerequisite for socio-economic development. Access to energy enables people to augment their income and productivity, enhance access to healthcare, water and education, and improve their overall well-being. Goal 7 is aimed at ensuring universal access to affordable, reliable and efficient energy services by 2030. Expanding infrastructure and upgrading technology to provide clean and efficient energy is critical to this endeavour.

Rajasthan SDGs Index: Goal 7

To measure Rajasthan's performance towards the Goal of affordable and clean energy, two indicators have been identified. These indicators have been selected based on the availability of data at the Districts level and to ensure comparability across Districts.

Indicator Used:

- ❖ Percentage of households electrified.
- ❖ Households using clean fuel for cooking.

Goal 7 Index Score

SDG Index Score for Goal 7 ranges between 50.00 and 82.45 for Districts. Kota is the top Performer among the Districts. Eleven districts bagged a position in the category of Front Runner. Twenty-two districts were in the performer category.

The following table presents the composite scores of the Districts on this Goal. It also shows a breakdown of the Districts by indicator.

DECENT WORK AND ECONOMIC GROWTH

Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all.

Goal 8 promotes sustained economic growth, higher levels of productivity and technological innovation. Encouraging entrepreneurship and job creation are crucial to this, as are effective measures to eradicate forced labour, modern slavery and human trafficking. It also seeks to protect labour rights and promote policies which support decent job creation and safe and secure working environments. With these targets in mind, the goal is to achieve full and productive employment, and decent work, for all women and men by 2030.

Rajasthan SDGs Index: Goal 8

To measure Rajasthan's performance towards the Goal of decent work and economic growth, six indicators have been identified. These indicators have been selected based on the availability of data at the Districts level and to ensure comparability across Districts.

Indicator Used:

- ❖ Annual growth rate of DDP (constant prices) per capita
- ❖ Workforce participation rate (2011)
- ❖ Percentage of households covered with a bank account under PMJDY against target
- ❖ Number of functioning branches of commercial banks per 1,00,000 population
- ❖ Automated Teller Machines (ATMs) per 1,00,000 population
- ❖ Percentage of women account holders in PMJDY

Goal 8 Index Score

SDG Index Score for Goal 8 ranges between 38.13 and 76.05 for Districts. Jaipur is the top Performer among the Districts. Eight districts bagged a position in the category of Front Runner. Twenty-one and four districts were in the Performer and Aspirant category respectively.

INDUSTRY, INNOVATION AND INFRASTRUCTURE **Build resilient infrastructure, promote inclusive and sustainable industrialisation and foster innovation**

This goal promotes investment in innovation; and reliable and resilient infrastructure which are crucial drivers of economic growth and development. It further aims at promoting increased resource use efficiency and greater adoption of clean and environmentally sound technologies and industrial processes. It recognises the importance of promoting sustainable industries and investing in scientific research and innovation, which are all important ways to facilitate sustainable development.

Rajasthan SDGs Index: Goal 9

To measure Rajasthan's performance towards the Goal of Industry, innovation and infrastructure, six indicators have been identified. These indicators have been selected based on the availability of data at the Districts level and to ensure comparability across Districts.

Indicator Used:

- ❖ Percentage of targeted habitations connected by all-weather roads under Pradhan Mantri Gram Sadak Yojana (PMGSY).
- ❖ Percentage Share of GVA in manufacturing to total GVA (current prices).
- ❖ Percentage of Villages connected by Road to total Villages.
- ❖ Road Length (Per Square KM).
- ❖ Per Lakh Business Entity Registered in Business Registration Portal.
- ❖ Percentage Share of GVA in Services to total GVA (current prices).

Goal 9 Index Score

SDG Index Score for Goal 9 ranges between 29.81 and 79.57 for Districts. Ajmer is the top Performer among the Districts. Fifteen districts bagged a position in the category of Front Runner. Eleven one and seven districts were in the Performer and Aspirant category respectively.

The following table presents the composite scores of the Districts on this Goal. It also shows a breakdown of the Districts by indicator.

REDUCED INEQUALITIES

Reduce inequality within and among countries

The Goal calls for progressively reducing not only income inequalities but also inequalities-of-outcome by ensuring access to equal opportunities and promoting social, economic and political inclusion of all, irrespective of age, sex, disability, race, ethnicity, origin, religion or economic or any other status relevant within a society. It also aims at enhancing representation and voice for developing countries in decision making in international economic and financial institutions.

Rajasthan SDGs Index: Goal 10

To measure Rajasthan's performance towards the Goal of Reduced Inequalities, four indicators have been identified. These indicators have been selected based on the availability of data at the Districts level and to ensure comparability across Districts.

Indicator Used:

- ❖ Rate of total crimes against SCs (per 1,00,000 population).
- ❖ Rate of total crimes against STs (per 1,00,000 population).
- ❖ Proportion of SC&ST Employment share in total MGNERGA employment generation to SC & ST Population.
- ❖ Percentage of Seats held by women in PR Institutions (PRIs)

Goal 10 Index Score

SDG Index Score for Goal 10 ranges between 48.07 and 93.92 for Districts. Banswara is the top Performer among the Districts. Twenty-nine districts bagged a position in the category of Front Runner. Three and one districts were in the Performer and Aspirant category respectively.

The following table presents the composite scores of the Districts on this Goal. It also shows a breakdown of the Districts by indicator.

SUSTAINABLE CITIES AND COMMUNITIES Make cities and human settlements inclusive, safe, resilient and sustainable

Goal 11 promotes inclusive and sustainable urbanisation. Making cities sustainable means creating career and business opportunities, safe and affordable housing, and building resilient societies and economies. It involves investment in public transport, creating green public spaces, and improving urban planning and management in participatory and inclusive ways.

Rajasthan SDGs Index: Goal 11

To measure Rajasthan's performance towards the Goal of sustainable cities and communities, four indicators have been identified. These indicators have been selected based on the availability of data at the Districts level and to ensure comparability across Districts.

Indicator Used:

- ❖ Percentage of urban households living in katcha houses.
- ❖ Deaths due to road accidents in urban areas (per 1,00,000 population).
- ❖ Urban households living in slums (%)
- ❖ Percentage of ward with 100 percentage door to door waste collection (SBM (U)).

Goal 11 Index Score

SDG Index Score for Goal 11 ranges between 50.74 and 99.07 for Districts. Karauli is the top Performer among the Districts. Thirty districts bagged a position in the category of Front Runner. Three districts were in the Performer category.

The following table presents the composite scores of the Districts on this Goal. It also shows a breakdown of the Districts by indicator.

RESPONSIBLE CONSUMPTION AND PRODUCTION

Ensure sustainable consumption and
production patterns

The Goal emphasises on “doing more with less” thus promoting resource efficiency, green economies and sustainable infrastructure. It also focusses on reducing degradation and pollution and minimising waste. The efficient management of our shared natural resources and the way we dispose of toxic waste and pollutants are important targets to achieve this Goal. It calls for awareness generation and dissemination on sustainable development, lifestyles and practices.

Rajasthan SDGs Index: Goal 12

To measure Rajasthan’s performance towards the Goal of responsible consumption and production, two indicators have been identified. These indicators have been selected based on the availability of data at the Districts level and to ensure comparability across Districts.

Indicator Used:

- ❖ Percentage use of nitrogenous fertilizer out of total N,P,K, (Nitrogen, Phosphorous, Potassium).
- ❖ Per Capita Food (Cereals) Production (Kg. per person).

Goal 12 Index Score

SDG Index Score for Goal 12 ranges between 23.21 and 82.34 for Districts. Ganganagar is the top Performer among the Districts. Ten districts bagged a position in the category of Front Runner. Nine and fourteen districts were in the Performer and Aspirant category respectively.

The following table presents the composite scores of the Districts on this Goal. It also shows a breakdown of the Districts by indicator.

LIFE ON LAND

Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss

The Goal is aimed at protecting, restoring and promoting sustainable use of terrestrial ecosystems; sustainable management of forests; combating desertification; and halting and reversing land degradation in conjunction with integrating ecosystems and biodiversity into national and local planning. It also seeks to promote fair and equitable sharing of the benefits arising from the utilisation of genetic resources, and prevent poaching and trafficking of protected species of flora and fauna.

Rajasthan SDGs Index: Goal 15

To measure Rajasthan's performance towards the Goal of life on land, three indicators have been identified. These indicators have been selected based on the availability of data at the Districts level and to ensure comparability across Districts.

Indicator Used:

- ❖ Forest cover as a percentage of total geographical area
- ❖ Percentage of area covered under afforestation schemes to the total geographical area.
- ❖ Number of cases reg. under Wildlife Protection Act (1972) to Geographical Area (per 1000 Sq. Km. Protected Area).

Goal 15 Index Score

SDG Index Score for Goal 15 ranges between 33.78 and 80.27 for Districts. Pratapgarh is the top Performer among the Districts. Two districts bagged a position in the category of Front Runner. Twelve and nineteen districts were in the Performer and Aspirant category respectively.

PEACE, JUSTICE AND STRONG INSTITUTIONS

Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels

Peace, stability and effective governance based on rule-of-law and upholding the principles of equality, human rights and justice are prerequisites for sustainable development. The 2030 Agenda aims to significantly reduce all forms of violence, and work with governments and communities to end conflict and insecurity. Promoting rule-of-law and human rights are key to this process, as are reducing the flow of illicit arms and strengthening the participation of developing countries in the institutions of global governance. Goal 16 also focuses on ending abuse, exploitation, trafficking, corruption and bribery, and in the development of accountable and transparent institutions.

Rajasthan SDGs Index: Goal 16

To measure Rajasthan's performance towards the Goal of peace, justice and strong institutions, nine indicators have been identified. These indicators have been selected based on the availability of data at the district level and to ensure comparability across Districts.

Indicator Used:

- ❖ Murders per 1,00,000 population
- ❖ Cognizable crimes against children per 1,00,000 population
- ❖ Number of victims of human trafficking per 10 lakh population
- ❖ Number of missing children per 1,00,000 child population
- ❖ Children under age 5 years whose birth was registered with the civil authority (%)
- ❖ Percentage of population covered under Aadhaar
- ❖ Percentage of Population Covered under Jan-Aadhar
- ❖ Deaths in the last 3 years registered with the civil authority
- ❖ Percentage of disposal of Grievances registered on Rajasthan Sampark

Goal 16 Index Score

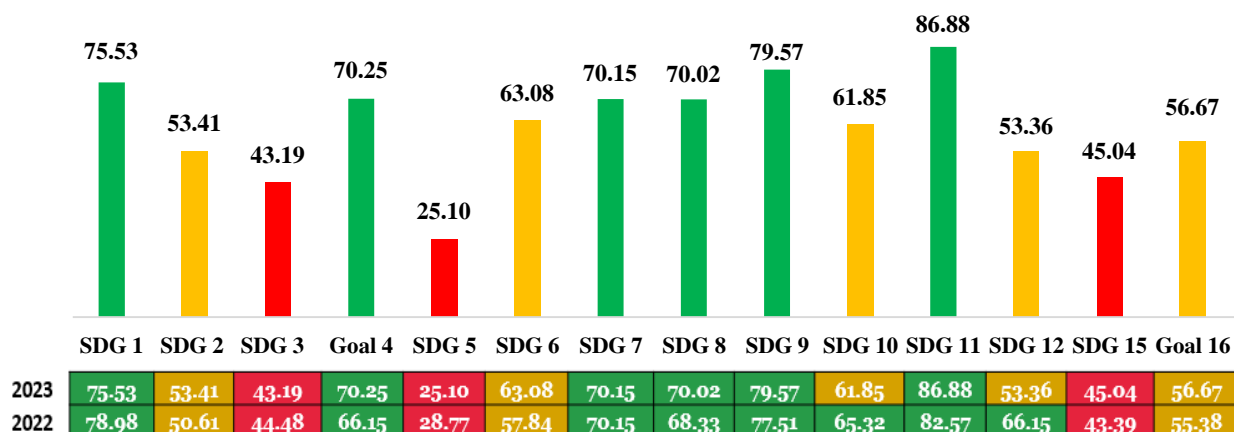

SDG Index Score for Goal 15 ranges between 38.83 and 76.32 for Districts. Barmer is the top Performer among the Districts. Five districts bagged a position in the category of Front Runner. Nineteen and nine districts were in the Performer and Aspirant category respectively.
